

## FEDERAL JUDGE ANDERSON ORDERS CANCELLATION OF MOST COAL MINERS STRIKE

### LIVES-UNTIL TUESDAY TO HAVE NOTICES ON WAY TO ALL DISTRICT UNIONS

**Miners' Chiefs Refuse to Comment on Court Action—Lever Act Held Constitutional by Federal Judge.**

INDIANAPOLIS, Ind., Nov. 8.—Cancellation of the strike order which since midnight of October 31st has kept 1,000 union bituminous miners out of the coal pits of the country was ordered by Judge A. B. Anderson in the federal district court here today.

Violation of the wartime federal food and fuel control act, as alleged by the attorney general's department, was annulled by the court who said that the strike was not only legal but that under the circumstances it was a justified rebellion.

## WHAT STEPS COAL MINERS WILL TAKE ARE UNCERTAIN

Leaders of Union Divided in Opinion of the Future.

### DAKOTA LIGNITE MINERS QUIT

CHICAGO, Nov. 8.—Leaders of the miners' union tonight were divided in opinion whether the striking soft coal miners would return to work should the executive board obey the mandate of Federal Judge Anderson to call off the strike. Whether any of them would attempt to defy the court and choose jail was uncertain.

The order of the court at Indianapolis, they said, was of transcending interest in the strike situation also there were a few other developments.

About 2,000 lignite miners of North Dakota went on strike as a snowstorm swept across the state, but non-union miners remained at work and the state appeared fairly well supplied with fuel. The government revised its order against bunkering of foreign owned vessels so that such ships not including coal as cargo might be coaled.

The attitude of the miners' leaders was rather cryptic, some refusing to talk, while others merely indicated a belligerent attitude.

The most outspoken of the leaders was Alexander Howat, of the Kansas district. He declared the executive board meeting would last until midnight Tuesday, also Judge Anderson had directed that they report to him at 10 a. m. Tuesday that the strike had been cancelled.

Am going to fight, Howat declared, adding that he had not altered his stand on the strike.

William J. Trickett, secretary of Maryland district, said he didn't think the men would return if the strike order was rescinded.

A somewhat similar opinion was expressed by Joseph Morris, president of the Iowa district, who said he did not think the cancellation of the strike would have much effect in Iowa.

B. A. Frampton, Missouri district president, said he did not think the court order would have any immediate effect in his district.

C. F. Kenney, president of the West Virginia district No. 17, said the men of his district would return to work if ordered to do so by their leaders, he believed. He said he had no desire to fight the government.

Philip Murray, president of Pennsylvania district No. 5, withheld comment until he should receive advice from John L. Lewis, acting president of the mine workers.

Frank J. Hayes, president of the United Mine Workers was on his way from Denver to Indianapolis tonight to participate in the union conferences.

Thomas T. Brewster, chairman of the coal operators' scale committee, announced that negotiation with the strikers would be begun as soon as the strike order had been rescinded and the men returned to work. The subcommittee of the general committee of the operators would meet in Pittsburgh Monday to discuss the situation, he said.

Still Busy in Detroit. Detroit, Mich., Nov. 8.—Continuing their raids on meeting places and homes of members of the Union of Russian Workers, department of justice operatives tonight added approximately 250 alleged radical agitators to the fifty taken into custody last night and early today.

REFUSE TO CONCEDE ELECTION OF RITCHIE. Baltimore, Md., Nov. 8.—Chairman Tate of the Republican state committee tonight refused to concede the election of Arthur Ritchie, Democrat, for governor, as shown today by the official canvass which gave him 165 majority.

Mr. Tate in a public statement charges that "thousands of ballots were thrown out all over the state particularly in Republican sections for flimsy and legally insufficient reasons."

SIR THOMAS LIPTON ARRIVES IN NEW YORK. New York, Nov. 8.—Sir Thomas Lipton, challenger for the America's cup, arrived in New York today to make arrangements for the overhauling of Shamrock IV, the yacht with which he hopes to capture the famous trophy.

MINERS' UNION ROBBED. Knoxville, Tenn., Nov. 8.—The local miners' union at McRoberts, Ky., was penniless today. It was robbed of \$1,000 yesterday by a man who passed as government agent sent to adjust differences between miners and operators.

PRINCE OF WALES COMING TO U. S. Washington, Nov. 8.—The Prince of Wales and his party will arrive in the United States at Rouses Point Monday evening, November 10 and reach Washington Tuesday noon, November 11.

## GENERAL WARFARE ON RADICAL ALIENS IN U. S. CONTINUES

Seventy More Raids Are Made in New York.

Federal agents last night continued the crusade against radical agitators in the various parts of the country started by Chief Flynn of the department of justice bureau of investigation and his men Friday night. Raids were made in New York, Detroit, Trenton, N. J., and Bridgeport, Conn., with the result that many hundreds more agitators charged with advocating overthrow of the government were taken into custody.

Scores of wagon loads of anarchistic literature were seized and at Trenton a quantity of gun powder, wire and electric batteries were found by the federal agents.

After the raid at Detroit, Arthur L. Barkey, chief of the department of justice bureau of investigation for that district indicted for the foreign relations committee the raids are to continue indefinitely until dangerous radicals are utterly routed.

In New York a total of 71 raids were made and more than 500 prisoners taken. Of 200 examined up to 2 o'clock this morning (Sunday) 190 were ordered held.

NEW YORK, Nov. 8.—Federal, state and city agencies joined hands tonight in seventy raids upon "red" headquarters in Manhattan, Brooklyn and the Bronx and as a result more than five hundred prisoners were brought to police headquarters for examination.

The raids were directed by the Lusk state committee appointed by the state legislature to investigate radicalism. Agents of the department of justice, New York state troopers, state plain clothes men, city, county detectives and all available city policemen co-operated in a crusade to curb the spread of radicalism.

Among those taken in custody was "Big Jim" Larkin, Irish labor leader, who was taken from his home in MacDougal Alley by state troopers. A few days ago the British consul in this city refused to give passports Larkin had for Great Britain.

Assassinations Planned. Chicago, Nov. 8.—Assassination of public officials and destruction of public and private property were openly advocated in literature of the Union of Russian workers which was made the object of federal raids with hundreds of arrests last night and today, the local investigation disclosed.

In Chicago 185 persons were questioned but many were released and the actual number held was 50.

Altho 15 deportation warrants already have been issued by the local immigration bureau with government activities continuing criminal prosecutions against some of those arrested has been planned. Deportation for alien agitators, however, was the government's chief weapon against those without citizenship. Criminal actions could be based on transportation of anarchic literature by mail and express according to Edward J. Brennan, chief of the local bureau of investigation. The union proved to be one of the most secretive organizations.

## SENATE ADOPTS AMENDMENT TO LEAGUE COVENANT

Republicans Vote Solid for Reservation.

### FINAL VOTE IS 50 TO 35

WASHINGTON, Nov. 8.—A reservation purporting to safeguard the nation's right to withdraw from membership in the league of nations was adopted by the senate today with every Republican senator and six Democrats voting for it or paired in its support.

Holding the whip hand by a safe majority, the Republican leaders swept aside every suggested modification and carried the reservation thru exactly as approved by the foreign relations committee. Two Republicans of the mild reservation group led a safe fight to alter it, but after they had failed, voted for adoption.

The final count was 50 to 35 and pairs announced for the absentees showed the entire senate membership to be divided 55 to 41. Five Democrats, Senators Reed, Missouri; Gore, Oklahoma; Smith, Georgia; Walsh, Massachusetts and Chamberlain, Oregon, voted in the affirmative while Senator Shield, Democrat, Tennessee, was paired in favor of the resolution.

The first of fourteen proposed by the committee to carry out a program which its sponsors said has been pledged a safe majority thruout, the reservation provided:

"The United States so understands and construes Article One that in case of notice of withdrawal from the league of nations, as provided in said article the United States shall be the sole judge as to whether all its international obligations and all its obligations under the said covenant have been fulfilled, and notice of withdrawal by the United States may be given by a concurrent resolution of the congress of the United States."

Following is the vote in detail: For Adoption: Republicans—Ball, Borah, Brandegee, Calder, Capper, Colt, Cummins, Curtis, Dillingham, Edgar, Fall, Fernald, France, Gronna, Hale, Harding, Johnson of California, Jones of Washington, Kenyon, Keyes, Knox, La Follette, Lenroot, Lodge, McCumber, McPherson, McLean, McNary, Moses, Nelson, New, Newberry, Norris, Page, Penrose, Phipps, Poinsette, Sherman, Smoot, Spencer, Sterling, Townsend, Wadsworth, Warren and Watson, 45.

## SENATE COMMITTEE REPORTS ON CAUSE OF RECENT STEEL STRIKE

Walkouts Are Characterized as "Industrial Barbarism"

### WASHINGTON, Nov. 8.—

Refusal of Chairman Gary, of the United States Steel Corporation to meet union representatives and the determination of the American Federation of Labor to organize the steel industry, rather than than any complaint of the steel workers themselves, brought about the steel strike in the opinion of the senate committee which investigated the controversy.

In its report, submitted to the senate today, the committee characterized all strikes as "industrial barbarism" and recommended establishment of a permanent mediation board similar to the former war labor board as a means of settling industrial disputes. The board should have the committee said, powers of compulsory investigating and settling all to all facts, but compulsory arbitration was not recommended.

The committee summed up its findings as follows: The laborers in the steel mills had a just complaint relative to long hours of service the wages were satisfactory.

That they had the right to have representatives of their own choosing present grievances to employers the possibly the representatives could come from the industry affected.

That behind the strike there was massed a considerable element of "I. W. W." anarchists, revolutionists and Russian Soviets. Remedies suggested by the committee included:

That congress establish a commission somewhat of the nature of the war labor board, with wide powers, the not with the power of compulsory arbitration.

That an Americanization law be passed requiring the effective education of foreign and native laborers.

That congress consider ways and means of extending aid to workmen seeking to buy their own homes.

That naturalization laws be amended so as to provide for the deportation of aliens who fail to learn English within five years.

That congress enact stringent legislation dealing with anarchists, revolutionists and all who would destroy the American government.

## LOWDEN ADDRESSES AMERICAN LEGION

CHICAGO, Nov. 8.—Governor Frank O. Lowden of Illinois, addressed an American Legion reunion tonight.

"The Legion is one of the most helpful organizations of the day," said the governor.

"I can recall from history that when the Civil War was over, many men feared for the future of our country when our great armies were disbanded. But in a single day those armies became the Grand Army or the Republic."

"And so today the almost five millions of men who wore their country's uniform in the recent war, are rapidly mustering into the American Legion and just as the Grand Army of the Republic was the most industrial organization in its generation, and the most helpful to this country, so the great American Legion is our best guaranty of the future."

## EVACUATION OF OMSK IS NECESSARY

OMSK, Nov. 8.—Russian Telegraphic Agency.—The council of ministers of the Omsk government has decided to evacuate all the civil establishments from Omsk. Admiral Koleshev head of the government and all the members of his cabinet will remain in Omsk.

Dealing with the situation the Ruskoye Dielo says: "The region between the rivers Ob and Irtysh will be the place where a decisive battle against the Bolsheviks who try to enter Siberia will take place. Omsk will be fortified and surrounded by trenches and serve as the center of our defense."

## DAUGHTER BORN TO MR. AND MRS. KERMIT ROOSEVELT

New York, Nov. 8.—A daughter was born today to Captain and Mrs. Kermit Roosevelt. A message sent to the widow of Former President Roosevelt, announcing the arrival of the grand child, said the child would be named Belle, after Mrs. Kermit Roosevelt's mother, Mrs. Joseph Willard, wife of the American ambassador to Spain. This is the third child born to the Kermit Roosevelts.

## MUST PAY DEATH PENALTY FOR WIFE MURDER

Chicago, Nov. 8.—Arthur F. Hansel, 28 years old, who served with the U. S. army, was today sentenced to be hanged Dec. 12, by Judge Hugh Pam in the criminal court. He was convicted of having shot and killed his wife last February.

## JOHN P. WHITE SILENT

Des Moines, Iowa, Nov. 8.—John P. White, former president of the United Mine Workers of America, said: "Very interesting news. I still have nothing to say," when he at Indianapolis that the coal strike order should be cancelled.

## SEVEN MEMBERS OF HUNTING PARTY MEET SAD DEATH

Drowned When Gas Launch Capsized Near Memphis.

### FOUR OTHERS ARE SAVED

HARRISBURG, Ill., Nov. 8.—Seven members of a hunting party were reported drowned early today and four saved when a gasoline launch capsized twenty five miles below Memphis. All were well known in Harrisburg and tonight a party of twenty members of the local Masonic lodge left on a special train for Memphis to learn the facts and aid the survivors.

Relatives of the launch party members were frantic tonight. Only meager information of the accident had been received here. The report gave the following names:

The Dead. Albert Harris, a florist. Samuel Davis, farmer. Clyde Davis, son of Samuel Davis. Henry Baker, wealthy stockman. Bert Peak, miner. Henry Nichols, miner. Samuel Russell, mine superintendent.

Men Rescued. Fred Potts, miner. Harry Hancock, miner. Joseph Pierson, automobile dealer. Wilson Pankoy, baker.

The party left Harrisburg Wednesday for a Louisiana hunting trip by way of the Ohio and Mississippi rivers. The report of the launch gave few particulars but it was supposed that the boat struck a floating log in the Mississippi.

## LLOYD-GEORGE DISCUSSES RUSSIA

LONDON, Nov. 8.—(By The Associated Press).—Premier Lloyd George, speaking at the Lord Mayor's banquet tonight and referring to the supreme council's effort at Russian peace early this year said:

"I hope the time is not distant when the powers will be able to renew that attempt with better prospects of success."

The premier taking up the most difficult question left for settlement, said:

"The Adriatic question has rather about it a deep passion, but I am confident a settlement will be found compatible with the interests and honor of our gallant allies. On the other hand, I am certain that justice will be done the nations emancipated from the Austrian yoke."

The premier declared that there was complete agreement between the allies that Turkish domination of the Greeks, Arabs and Armenians should end and that the Black Sea should be free to all nations.

## STEEL SECRETARY DENOUNCES PRESS

NEW YORK, Nov. 8.—William Z. Foster, secretary of the National committee for organizing steel workers, who was driven out of Johnston, Pa., yesterday addressed a mass meeting in Madison Square Garden tonight at which he declared "despite what the lying press has said this steel strike is effective."

The men are going to stay on a strike, he declared.

The meeting under the auspices of the central federated union was held for the benefit of the strikers and checks and cash taken in amounted to more than \$295,000, it was announced.

## PRIVATE SHOT: POLICEMAN IS HELD

And talking about the high price of shoes and leather, some one has truthfully suggested that perhaps the existence of so many leather coats has had something to do with the leather demand. It is only reasonable to believe that an increase in the leather products will make the available supply less and of higher cost.

Attorney General Palmer wants government control of prices to continue for a year after the war. He argues that since prices have increased so rapidly in the past months, that conditions are really more difficult for the people than during the war. The public will admit the fact, but somehow government control of prices and of business does not appeal to a majority of the people.

He must be a brave Republican in Illinois who seeks to oppose Governor Lowden as a presidential candidate or to turn the influence of Illinois some other way. Every member of the party in the state of prominence has already come out strongly for the Lowden candidacy, save Mayor Thompson of Chicago; and no doubt the mayor is merely holding himself temporarily aloof. He is too wise a politician to "stay out" long.

The supreme court has denied the petition of Boston striking policemen for a writ requiring their return to the positions they formerly held. The finding is not at all surprising to those who believe in order and law observance. Aside from the question of legality, the sentiment of the country was very strongly against the Boston officers, who were sworn to enforce the law and then viciously sought to set it at naught by their action in striking.

No less an authority than the editor of the Railway Age believes that the railroads after their return to the owners will need to spend \$6,000,000,000 for improvements. There are two ways

to raise this fund; one from greater economy in operation and the other from rate increases. Probably it will be necessary to follow both plans in raising such a huge sum.

The charge is freely made that Lenin and Trotsky are financing many of the industrial disturbances in this country. The government is said to have the evidence that the funds are coming in for this very purpose of creating unrest. If the government does have the evidence, quick justice should be meted out to the offenders.

More and more enthusiasm is evidenced in preparation for the Jacksonville celebration of Armistice day next Tuesday. It is a reasonable request that business houses close from 11 to 11:30 o'clock and certainly there will be no loss of trade thru this closing plan. Really Armistice day should rank as one of the greatest of American holidays. It is not right to call it American either, for it is a world celebration.

## FARMERS POTENTIAL STRENGTH

Farmers from all states in the union are to meet in Chicago this week to form a national association. It is said that the steps toward organization which have been taken in the past months have shown a unity of action among farmers that has never existed in the past. If a general organization of farmers is effected and one which enrolls a majority of agriculturists of the several states into one great organization, its power will be almost limitless.

## A MINING PROBLEM

One unfortunate feature about the contract that the mine operators and the miners will negotiate is that it cannot be as mutual as is true of some contracts between other employers and employees. Under certain conditions employers can enter into an agreement to furnish employment at a stipulated wage for a certain period of time. This is not true with the operators, whose business is dependent not only upon the seasons but upon the question of storage facilities. The mines cannot be operated continuously unless there is some place to put the product and then consumption of course is greatly lessened when the warm days come.

This situation is one of the difficulties that must be solved in negotiating an agreement and it is one of the difficulties which the public generally does not thoroughly understand. If some way can be found to keep mining operations moving steadily instead of spasmodically it will be much easier for employers and employees to come to an agreement.

## HIGH CLASS MEN

It is a matter of great satisfaction to citizens of Illinois in looking over the list of men

elected delegates to the constitutional convention to find that the people have chosen so wisely. Generally speaking, men of large calibre have been named. Most of the men have been prominent in one way or another in the affairs of the state, for some years past, and they are familiar with the present day needs. There are men in that list who have made a special study of Illinois affairs and certainly there is the feeling, as one goes over the entire list and considers the fitness of each, that a constitution worthy of a great state and well representing its various interests will be later submitted to the voters.

Just by way of example, one of the delegates is Charles Woodward of Ottawa. He is credited with having written the present administration's code law, which outlined the various departments of state affairs and has done so much for promoting efficiency. There are many others of like type in the convention make up.

## REAL VALUES IN LIFE.

Will Hays, national chairman of the Republican party, made the keynote speech at the big round up in Springfield Friday night. In several statements Mr. Hays evidenced a distinctly reverent attitude of mind as he referred to the history of this country under providential care and as he touched upon certain phases of party history.

Such an attitude is not a common thing at a political conference and the fact impressed many of those present. A Jacksonville man who has in past years frequently made public addresses, said recently that he had often been thanked by persons in his audiences for reverent utterances as he has taken occasion to point out what are the real values in life. All of which goes to show that there is an increasing reverence these days, possibly a direct result of the world war, but a fact, no matter what the cause.

People nowadays talk more freely about religious subjects than used to be the case, and generally speaking men and women seem to have a truer estimate of what really counts in this world.

It is thoughts along this line that bring to mind an estimate of life attributed to Alexander Hamilton by a famous orator of his day. This was the message: "Mortals hastening to the tomb, once the companions of my pilgrimage, take warning: avoid my errors, emulate the virtues I have recommended; choose the Savior I have chosen and if you would rescue anything from final dissolution lay it up in God."

## AMERICANISM THE WATCH-WORD OF REPUBLICANS.

Old timers and politicians of the present day type were all gathered at the Republican powwow in Springfield Friday. Men testify that it was really one of the greatest Republican gatherings ever held in this state. Americanism was the keynote of the speeches and that was made the principal plank in the platform that these staunch party men built in an impromptu way. It was declared that the Republican party is big enough and broad enough for all men who truly love their country, and that Americanism is the first attribute of party membership and of citizenship.

Only the Bolsheviks and radicals are barred from Republican ranks and there is no way that these undesirables can break in. Chairman Will Hays of the national committee, Congressman Rodenberg, Col. Chipperfield and others made addresses ringing with patriotism and there was not a man or woman present at the gathering, which lasted more than four hours, who did not feel proud both of being an American and a Republican.

The tribute to Governor Lowden when his name was connected with the presidential nomination was one not soon to be forgotten. The governor was visibly affected and with a choking voice did little but thank the company for the expression of esteem and good will.

Gov. Lowden of Illinois for president, Gov. Coolidge of Massachusetts for vice president—that was the ticket named and it certainly has a triumphant sound.

## WHAT THE BOY SCOUTS DO

The unsightly ruins left after a big fire in Catskill, N. Y., were such an eyesore that the Boy Scouts of Troop No. 1 cleaned up the place as a "good turn" for their city.

A wheel chair was brought for an invalid boy by the scout troop in Poughkeepsie, N. Y.

Americanization is attained for the younger ones in our foreign population by a short-cut thru the program of Scouting. In Lowell, Mass., a troop of scouts has been formed of Greek boys, and a committee of Portuguese is also organizing a troop.

With the Government restrictions now taken off amateur radio plants, thousands of Boy Scouts will again begin training. Hundreds of scouts filled important places in the Government wireless service in the war, following the scout motto of "Be Prepared." The Hudson Valley Federated Chambers of Commerce has approved the Boy Scout Movement and pledged its aid to making it a success in all the cities along the river.

The central fire department station in Miami, Fla., is going to "kaddy" Troop No. 4 of Boy Scouts. On the troop committee are the captain, a fireman, an inspector and the electrician, and the phone operator is the scoutmaster.

The American Legion at the meeting of the Chapter in Westchester County, New York, approved the Boy Scout Movement. John H. Clifford, "Fighting Doc" Clifford of the Fifth Marines, is in Kingsport, Tennessee, and writes to National Boy Scout Headquarters in New York City that he has established the first of a number of Boy Scout troops there. He was Scoutmaster of Tucson, Arizona, before going over on the other side, and his son has been a member of Troop No. 51 of Patterson, N. J.

Scout Troop No. 1 of Wakefield, Vt., took a hike from Lake Dunmore to Ethan Allen Cave by compass thru the mountains.

A Warrenton, Va., troop of scouts cleans up the streets of the town twice a year. The scout truck is always at disposal for any charitable or helpful work.

When King Albert of Belgium stopped at Toledo to visit Brand Whitlock, the route from the station to the museum was lined with citizens, and thousands were banded around the buildings. Boy Scouts who reinforced the city policemen had a hard time holding back the throngs, but they struggled manfully and made a good job of it.

Governor C. J. McCarthy of Hawaii has set aside a parcel of land containing 64.24 acres for the use of the Boy Scouts of Kilauea Council at Hilo. After this tract is improved the Hawaiian Scouts will have a wonderful camp site.

A campaign for \$38,000 in Waterbury, Conn., to provide funds for the local boy scout council for three years, including \$10,000 for camp development, closed on time with \$41,000.

## THE COP

Oh, the cop gets princely wages, just to hear and sympathize, when we'd vent our futile rages, and hand out some sobs and sighs. He is standing on the corner, in his uniform of blue, and he'll weep with any mourner who would raise a howdydo. Tell your troubles to the copper, an attentive ear he lends; it's immoral and improper if you spring them on your friends. We have all our little sorrows lodge; and no man of wisdom borrows any troubles he can dodge; so when you are seen approaching with fresh grievances supplied, I don't need a lot of coaching ere I run away and hide. Tell your troubles to the peeler, he will fatten on your wall; he will list to every spiler as he leans against the jail; oh, he leans against the prison, and he teeters on his toes, and a princely wage is his'n, just because he hears your woes. All your griefs are old and hoary, and of weariness they're full; go and tell your dismal story to the nearest harness bull.

Paramount-Artcraft Super

Maurice Tourneur Directs Melodrama

## "The Life Line"

Full of Red Blooded Action

Crowded with Great Scenes and Thrills; Theater Fire and Sea Rescue Classics

## Reasons for Its Success

- (1) A melodrama is never a melodrama in every sense of the word unless it has thrills, and these "The Life Line" offers in abundance. The plot possesses that strong sustaining quality which is noticeable in only the best of melodramas and the suspense rises steadily from beginning to end. In fact "The Life Line" might be termed one long thrill at such a high key is the action pitched. However, there are two physical punches incorporated in the action that are supreme in their line.
- (2) Because Lew Cody and Jack Holt, two of the screen's most popular actors appear in it.
- (3) Because Seena Owen, player in many Paramount-Artcraft pictures, and Pauline Starke, an extremely clever actress of the Mae Marsh type, also appear in it.
- (4) Because it is built with the utmost skill, the most delightful romances and the most human humor, alternating with melodramatic thrills aplenty.
- (5) Because its photographic and lighting effects are supreme in every detail.
- (6) Because the plot's fundamentals are such that no one who sees the first few scenes can help sitting with eyes practically glued to the screen.
- (7) Because the big fire in the London theater. Realism is at its height throughout this series of scenes. Three of the characters are observing the show from the gallery. Throughout the first act we see just their facial expressions and so good are they that we know just the type of melodrama they are watching. From these light scenes the action is precipitated into sheer intensity when the fire breaks. The gallery exits are choked and the three are obliged to swing from the gallery to one of the boxes and finally make their escape after fighting their way through the leaping flames and the frenzied crowds.
- (8) Because the ship wreck scenes in the final reel. These show various flashes of the interior of the ocean liner as it is being tossed about on the rocky coast. The large saloons on the ship are flooded with overwhelming rushes of water. The watchers on the shore see the rockets flare and fire out the life-line. The final rescue of the heroine by the hero by means of this line forms the thrilling climax of the picture.

## OIL PORTRAITURE PHOTOGRAPHICALLY

A recent number of the Atlanta, Ga., Journal contains an extended notice of new process of oil portraiture discovered by Mrs. Emma Scott Jennings of that city. The lady is a daughter of Ezra Scott of this city, a graduate of the Chicago Art Institute and a lady of much talent. The photograph is taken on linen paper and is then finished in oil by Mrs. Jennings' newly discovered process. The paper contains an extended notice of the process which seems to be quite a discovery in portraiture.

**FIRE GIRLS**

A beautiful and impressive Council Fire of the Watchkeke Camp Fire was held at the home of Lucile Harber on Webster street at four o'clock Saturday afternoon.

Two new girls were taken into the circle and one member received the rank of Wood Gatherer.

A very interesting letter from Miss Anne Stevenson telling of her work in Washington was read by the guardian.

After the Council Fire, Miss Laura McDonald told of her work in a Y. M. C. A. canteen in France. It was intensely interesting and was much appreciated by the girls.

After the meeting dainty refreshments were served by Mrs. Harber and daughters.

day of the venerable J. D. Erickson and his dutiful daughter, Mrs. Samuel Bridgman, residing a few miles northwest of the city and with whom he lives, decided the event should be suitably celebrated and to think was to act and accordingly due preparations were made and the event was an entire success. Of course the guests would be of the family and they were children, grand-children and great grand-children and were son Thomas, wife and daughter Catharine of Jacksonville; J. Goodpasture, grand child of Grace Chapel vicinity; son Delbert and wife of Murrayville; grandson, Earl Bridgman and wife, and great grandson James, of Jacksonville; James Middleton and wife, grand-daughter and daughter, great grand-daughter of Jacksonville; John and Pearl Bridgman, grand-children, Mrs. Clayton Stewart, grand-daughter, Exeter.

A sumptuous dinner was enjoyed at noon and the day was spent most happily by all present. Many nice and useful presents testified to the esteem in which Mr. Erickson is held by relatives and friends.

Though so far past four score Mr. Erickson is still quite active and in the full possession of his faculties. Of course he would hardly run as fast and as far as he would fifty years ago but he's all right.

Members of Phi Nu Literary Society of the Illinois Woman's College entertained at the college Saturday afternoon in honor of a number of the Freshmen. The event was given in the two rooms occupied by the Phi Nu and Belles Lettres Societies. A five-piece orchestra afforded excellent music and the young ladies enjoyed the hours by dancing and in a social way. Light refreshments were served.

The members of the Lambda Alpha Literary Society of the Illinois Woman's College were hostesses to a number of the new students of the college at a social given at the institution Saturday evening. The affair proved most pleasing in every way and all present enjoyed the time together.

**DAIRY FILM IS TO BE SHOWN HERE**

Motion Picture State Department Uses Coming to Jacksonville Next Friday.

"The Story of the Dairy Cow" a film, which is being shown by the department of dairy extension of the state of Illinois, will be shown in Jacksonville next Friday, November 14. This motion picture is of distinct educational worth and is an exposition of the importance of dairy interests. It of course shows how the business extends from dairying proper into the creamery and into other branches of commercial life. The showing of the film is accompanied by an explanation, a man well versed in dairying interests accompanying the film in whatever city it is shown.

In Jacksonville it is planned to show the picture at the Rotary club luncheon at noon and at night it will be on view at a general meeting which will probably be held at the court house.

**GOVERNMENT TO TEST OIL SHALE LANDS**

The Government is to co-operate with the Southern Pacific Railroad in an experiment to test the value of oil shale lands in California, Nevada, Utah, Colorado and Wyoming, through the erection of an experimental plant at Elko, Nev. A tentative agreement between the Government and the railroad made four years ago was interfered with by the war, but now bills have been introduced into Congress covering authority and appropriations for the building of the plant, the Government to be represented thru the Bureau of Mines.

The Bureau of Mines has estimated that the oil shales of the five states mentioned contain 75,000,000,000 barrels of oil or the equivalent of twenty years' production at the present rate. The shale oil has a paraffine base and is of high gravity. It is rich in lubricating and medicinal qualities.

The plant to be built will treat from ten to forty tons of shale per day. There are a number of private corporations and individuals interested in oil shale lands and the experiment will be watched with interest.

### THE CONDITION OF GERMANY

The Country Fast Approaching Normal—Will Not Pay Indemnity Unless Forced.

A recent number of the Atlanta Journal contains an account of the report brought back by Capt. Cronheim after months spent in that country long after the armistice. He says in part:

Germany is not physically hurt at all by the war and is rapidly approaching her normal condition. They are building factories, send out agents and taking every means so well understood by German business men to secure foreign trade. The factories are running full time, the only trouble being shortage of coal. The government is backing the business men as it did before the war; the wealthy are paying the war tax in some instances from 40 to 60 per cent of the principal. The rich are trying to send valuables out of the country by aeroplane, the only way, as railroads are watched. Agents are scattered all through European countries preparing the way for the sale of German goods; they are working hard to secure ships; they are constantly planning how to keep from complying with the peace terms and will not comply unless forced and any let up will be dangerous if not fatal.

Everywhere the people are boasting that in ten years they will be back in France and get back all they have lost; they are prophesying a U. S. war with Japan and a lot of German officers now out of a job, are going to Japan and many are with the Bolsheviks. Germany is especially trying to get a foothold in Russia and eventually control that country and it behooves all the allied nations to keep her out. She is also sending many agents and shrewd men into Mexico and South America and the result will only be for evil to America.

The rich class would like to see the kaiser back but the masses will never stand it. In their hearts they cordially hate the U. S. They would spit on the ground before the U. S. officers and if a woman was seen walking with an allied soldier she was marked for ostracism. Several times the captain and his men were threatened with mobs.

**THE BLACK MAN AND THE SOUTH**

The following communication with reference to conditions in the South is from the Greenville (Miss.) Democrat Times and was sent to the Journal by a subscriber who owns land in the South:

Editor Democrat-Times:

I would ask space to make an appeal to my race in the South. I appeal to my race as one who knows Southern customs and conditions. We here in the South are at home with our friends. During the 200 or more years of slavery after the Northern "speculator" had dumped us in the market of the South, the white South began to train us along religious and agricultural lines. For more than two centuries we sat in the same meeting houses; the white man's preacher was our preacher. Out of the same Bible we learned our duty to God and man. The Southern negro owes the Southern white man a debt of gratitude for his enlightenment and for his civilization.

The Southern white man's pocket-book has been open for the education of the negro for more than fifty years. The Southern states have built and maintained schools and colleges for the negroes in abundance.

The negro has not always taken advantage of the opportunities offered him, for various reasons:

First, from ignorance; not knowing the value of an education.

Second, the man who had one or two boys of school age would often himself "walk about" while the boys stuck to the plow, or would mortgage out the whole family for twelve months or more.

Now, this was the case, with a few exceptions.

The White South stands with outstretched hands to the black man. Never before in the history of the South has the opportunity been better for the negro than now. He finds himself in a new Eden, surrounded with every domestic opportunity to earn a living for himself and family.

The thing for members of my race in the South to do is to turn a deaf ear to the false prophets of the Northern clime and decide to stick to our homes and Southern white friends who are doing so much for our elevation as a people. Sincerely,  
BISHOP E. H. TAYLOR.

**VIRGINIA**

The teachers of the Ashland public school attended the teachers' Institute at Virginia last Thursday and Friday.

The Ashland Woman's club held their annual Halloween party at the home of Mrs. D. O. Hill. Quite a few were present and all enjoyed a good time.

The high school teachers of this place were hostesses at a Halloween party for the pupils at the high school last Friday evening. The party was at the home of the president of the school board, Mrs. J. E. Shiven.

Mrs. Edward Hunter of Tampa, Fla., is visiting her sister, Mrs. J. J. Wyatt.

Dr. W. S. Taylor has been confined to his home for the last few days on account of sickness. Quite a few from here attended the funeral of little Bettie Ann, the daughter of Mr. and Mrs. Earl Prevines of Pleasant Plains, yesterday.

Charles Kintz is quite sick at this writing, he having suffered another stroke of paralysis.

### Matrimonial

**Whitaker-Thompson.**

Loy Olas Whitaker of Hettick, and Miss Dollie Thompson of Modesto were united in marriage at Central Christian church parsonage at 8 o'clock Saturday by the Rev. Myron L. Pontius. The ring service was used and the ceremony was witnessed by Mr. and Mrs. Frank Whitaker, and daughter, Hazel, parents and sister of the groom.

The groom is the son of Mr. and Mrs. Frank Whitaker of South Church street, and only recently returned home from overseas service. He was with the Second

Division, and went over the top twice in the St. Mihiel and Champagne offensives and was once wounded. He is a farmer by occupation.

His bride is the daughter of Mr. and Mrs. Samuel Thompson of Modesto and is a young woman highly regarded in the city in which she has made her home. They will reside here this winter and will then go to Hettick where they will make their home on a farm.

Miss Marjorie Johnson who has been a patient at the Springfield hospital for the last two weeks has returned to her home much improved.

The Evangelistic campaign at the Christian church began Sunday night, Nov. 2. H. L. Hayes of Carmi, Ill., will have charge of the meetings.

## Auto Owners, Why Throw Money Away?

## Announcement

We extend a cordial invitation to the automobile public to call at our store any evening between 7:30 and 8:30 to witness a demonstration of Double Seal Piston Rings as well as to listen to an interesting talk by Mr. Hanway (factory representative) on internal combustion engine troubles caused by faulty piston rings and which are entirely eradicated by installing Double Seal piston rings.

Would you believe that by the installation of DOUBLE SEAL piston rings you can save:— 15 to 20 per cent of your oil and from 10 to 30 per cent of your gasoline?

These rings are recommended by leading automobile authorities throughout the country and guaranteed to give satisfaction under our guarantee. Besides the rings paying for themselves in a short time your motor will develop an enormous increase in power and speed and the wear on your motor will be cut down to a minimum. Your garage or repair man can get them for you.

## OBSERVANCE OF ARMISTICE DAY

Business Houses Requested to Close Thirty Minutes—Program for Community Sing Announced

Mayor E. E. Crabtree and Mayor Pro Tem Ehnie have requested all business in the city cease for one minute at 11 o'clock Tuesday morning in observance of Armistice Day. All business houses are requested to close their places of business from 11 to 11:30 o'clock.

The plan is a nationwide one to have all business stop during the morning of Victory Day. Trains will be halted at the designated time and all workers will lay down their tools for a brief period.

The Chaminade Musical Club has arranged a community sing in Grace church and a program of patriotic songs has been prepared. An address by Dr. Carl E. Black will also be a feature of the program which is given in detail.

America—Chorus and Congregation.

Prayer—Rev. M. L. Pontius.  
Battle Hymn of the Republic—Chorus and Congregation.

Paper—Memorial to Our Victory Boys—Mrs. Harriet Nelson.  
Solo: The Americans Come; Pay Poster—Miss Rena Lazelle, (Woman's College.)

Address—Dr. Carl E. Black.  
Nearer My God to Thee—Chorus and Congregation.

Land of Mine; MacDermid—Illinois College Glee Club.  
Home, Sweet Home—Chorus and Congregation.

Solo: Sound the Loud Trumpets—Mrs. Robert L. Stice, (Chaminade Club.)

Hallelujah Chorus From The Messiah—Illinois College Chorus.  
Star Spangled Banner—Chorus and Congregation.

Blest Be the Tie That Binds—Chorus and Congregation.

Benediction: Rev. T. H. Tull.  
Every person in the community, the schools, colleges, industrial plants, churches, and all organizations have been invited, and are expected to join in this great event.

We will all sing the same songs, at the same time, throughout this beautiful land of ours. Doors of the Grace church will be open at 10:30 and the people will assemble at that hour, the sing will begin promptly at 11 o'clock.

Prof. Charles Keep will direct the chorus, with Prof. Pearson at the organ. There will be a chorus rehearsal Sunday afternoon at 2:30 o'clock in Grace church for those who are to assist in leading the singing.

## THE BEAUTY OF FOLK SONGS

"Listen carefully to folk songs. They are a storehouse of most beautiful melody, and unfold to the mind the inner character of different peoples."—Robert Schumann.

A field wonderfully rich in beauty and interest is that chosen by Grace Wood-Jess, singer of Folk Songs.

Gifted with a mezzo-soprano voice of great warmth and sweetness, unusual personality and dramatic ability, Grace Wood-Jess is peculiarly adapted for interpreting these rarely heard melodies of the people. Her programs include folk songs of France, England, Ireland, Plantation Melodies, and songs of the Kentucky mountain folk. The lilt of the Old Irish and quaint songs of England, the naive and haunting ballads of our Southland, combined with the Old French form programs of distinctive charm.

In her exquisite costumes Mrs. Jess is a joy to see as well as to hear, and her art is one of the rarest and most satisfying of today. Woman's College Music Hall, Friday, Nov. 14th.

## SPECIAL SERVICE AT WESTMINSTER

Service Flag Will be Demobilized Tonight—Former Soldiers Will Tell About Experiences.

A special patriotic service has been arranged by Dr. Landis, pastor of Westminster church, for tonight. The occasion will mark the demobilization of the Westminster service flag with its large number of stars, and also the bringing into prominence of the Christian service flag. According to the arrangements made, a number of soldiers of the late war will tell of their experiences and observations. Such choice has been made of speakers that men representing different departments will be heard. One will tell of the medical corps, another of the Red Cross work in prison camps, a third personal experiences at the battle front and still others will tell different experiences.

At the close there will be a brief service when the pastor will emphasize the meaning of the Christian service flag and make a plea for the enrollment of all young people of the church under this flag. Miss Ainslie Moore, director of the chorus choir, and Mr. Fred Bray, the organist, have arranged a special program of music. The choir, which was organized only a few weeks ago under Miss Moore's direction is doing excellent work and adding greatly to the interest in services at Westminster.

## INFANT CHILD DIES SUDDENLY

Child of Mr. and Mrs. Jesse Vedder Found Dead in Bed—Inquest Held Saturday.

Marjorie Vedder, infant daughter of Mr. and Mrs. Jesse Vedder, was found dead in bed at the home of her grandparents, Mr. and Mrs. Thomas Lacey, 1721 South Main street, Saturday morning about 2:30 o'clock.

The father heard the child gasping and got up to give it attention. Its condition was such that he summoned Dr. J. M. Wolfe. When the physician arrived the child was dead.

Coroner Rose was notified and empanelled a jury composed of William Batz, foreman; E. M. Henderson, William Catherwood, C. E. Campbell, Van Simms and B. L. Stice, and held an inquest.

The jury heard the testimony of the child's parents and Dr. J. M. Wolfe. A verdict was returned that death was caused by strangulation.

Brief funeral services will be held at the home of the grandparents this afternoon. The remains will then be taken to Youngblood church where more extended services will be held in charge of the Rev. F. M

## New Ruling From War Risk Bureau

In order to give all former service men whose insurance has lapsed or been canceled, a fair chance to reinstate their insurance, including men who have been out of the service eighteen months or more, and who are therefore barred from reinstatement under the former ruling, a special blanket ruling is made which allows all ex-service men to reinstate their insurance before December 31, 1919, provided that each applicant is in as good health as at date of discharge or at expiration of the grace period, which is the later date, and so states in his application. Of course it is necessary that he tender the two month's premiums on the amount of insurance he wishes to reinstate.

Service men who reinstated their insurance by payment of all back premiums prior to July 25, 1919, when the decision requiring payment of only two months' premiums went into effect, upon written application to the Bureau may have any premiums paid in excess of two applied toward the payment of future premiums.

by Mrs. O. H. Buffe, the president.  
After the minutes of the  
first meeting were read by Mrs.  
H. A. Perrin and approved the  
report of the executive board  
meeting was held. The report  
showed that there are 218 paid  
members in the club. The board  
voted to give \$5 monthly to the  
Free Kindergarten, to buy a  
membership in the Y. M. C. A. for  
some worthy boy, and pledged \$5  
to the Jewish Relief Fund. They  
also voted to cooperate with the  
D. A. R. in raising funds for the  
purchase of the Governor Joseph  
Duncan home.

**Announcements**  
In the absence of Mrs. Tandy,  
Mrs. Lurten gave the Round Table  
announcement. Round Table  
will meet at Grace church Nov.  
15th at 2:30 o'clock. Mrs. Alice  
Huston will give a demonstra-  
tion on meat. The president then  
announced that the next regular  
meeting of the Woman's Club  
would occur on Dec. 13th. A  
program is being arranged by  
Mrs. W. S. Jones, who will secure  
a speaker of prominence on child  
welfare. The president further  
announced that on Nov. 11th at  
11 a. m. there will be a commu-  
nity sing at Grace church. Mrs.  
Harriet Nelson will give a tribute  
to our victory boys and Dr. Carl  
E. Black will speak. Members  
of the club were asked to attend in  
a body. The song recital of Mrs.  
Grace Woods Jess at I. W. C. on  
Friday, Nov. 14th was called to  
the attention of the club and tick-  
ets were sold by Mrs. Wm. Barr  
Brown. Dr. and Mrs. E. L. Hill  
of the Jacksonville State Hospi-  
tal extended an invitation to the  
Woman's Club for Nov. 22nd at  
1:30 o'clock. An opportunity to  
meet many of the state welfare  
workers will be given and there  
will be a program of unusual in-  
terest.

**Miss Scheibel Pleases**  
After voting on amendments  
to the constitution, Mrs. Buffe  
introduced Miss Rebecca Scheibel  
who sang "Call Me No More," by  
Cadman; "My Little House," by  
Capt. Feneca Pierce and "Rondo  
of Spring," by Frank Bibbs. Miss  
Scheibel was accompanied by Miss  
Alice Mathis. It was a rare  
pleasure for members of the club  
to hear Miss Scheibel in this  
group of songs. Miss Scheibel  
has a beautiful voice and put her  
personality and interpretation in-  
to each song. She delighted the  
club by singing as an encore  
Fritz Kriedler's Cradle Song.

**Miss Brooks Introduced**  
Mrs. Buffe then asked Mrs.  
Carl E. Black, chairman of the  
social service department to in-  
troduce Miss Fannie Brooks of  
the Department of Economics of  
the University of Illinois, who  
talked on the "Nursing Care of  
the American Soldier."

At the moment Miss Brooks be-  
gan to speak each member knew  
she would be keenly interested.  
Each was caught by her voice,  
the forceful and direct beginning  
of her lecture, by her individual-  
ity, and by the fact that she was to  
tell of personal experiences. Miss  
Brooks stated that she would  
speak about the work at Rheims,  
and Chateau-Thierry, of the trans-  
port of American sick and wound-  
ed on Train No. 70, and of the  
care of war brides on the re-  
turned transport Antigone.

**French Evacuation Hospital**  
When she arrived in France  
with other American Red Cross  
nurses they were taken to a hotel  
under the supervision of Ann Mor-  
gan, where the girls had a home  
with good food and warm water.  
On July 14th, when the French  
were celebrating the fall of the  
Bastille, word was received from  
headquarters for them to be  
ready to leave the next day. The  
roads were so well guarded that  
it was a slow journey to Senlis,  
which is a town not far from  
Paris that had been attacked by  
the Germans. At this place they  
were to serve in a French eva-  
cuation hospital. The second bat-  
tle of the Marne, known as the bat-  
tle of Chateau-Thierry was in  
progress and the Americans  
played an important part for the  
first time.

**Care for Thousands Daily**  
Upon their arrival at this hospi-  
tal, the French prepared lunch  
which consisted of black bread,  
six months old, near coffee and  
wine. The nurses were billeted  
in various places, Miss Brooks go-  
ing to a drinking house, while an-  
other of her number went to a  
place where the rabbits and  
chickens came in to spend the  
night. At the hospital the nurses  
wore the gray uniform with white  
collar and cuffs, white caps and  
butcher aprons. The wounded  
men were brought in after their  
first aid attention on the field to  
this evacuation hospital. They  
were received by French sur-  
geons who made a record of the  
man's injury and gave the anti-  
tetanus serum if it had not been  
given on the field. The nurses  
were given black coffee every  
three hours. The wounded were  
put on tables and those who could  
sit up were placed on benches.  
On the first day 5,600 wounded  
men were cared for. And on the  
next day 2,100 wounded men  
went thru the hospital, were car-  
ried out and sent on to Paris. The  
nurses worked alternately six  
hours, cutting off dirty bandages  
and putting on clean ones. At  
times like this Red Cross nurses  
had no thought of self. They  
thought only of how much they  
could do for the men. It was  
providential that the weather was  
perfect, because the hospital was

full and many had to sleep in the  
open. But the boys were well  
provided with blankets.

**One Field Hospital**  
Miss Brooks stayed at Senlis  
three weeks and then went to  
Villers Cotterets. This was an  
open field where a Scottish wom-  
an's hospital had been completely  
and deliberately destroyed by  
the Germans. Army cots, army  
pillows of straw, and army blank-  
ets were given each nurse. At  
nights they put on their rain  
coats and tight silk caps to pro-  
tect themselves from the little  
troubles that made them forget  
their big troubles. There was no  
screening in France and besides  
flies which were there by the bil-  
lions, there were many wasps.  
For food they had black bread,  
rice, and horse meat, wine and  
coffee. When a nurse was off  
duty at her own hospital, she  
would go to another not far dis-  
tant and prepare brood and other  
nourishing food for the wounded.

**Describes Air Raids**  
Miss Brooks vividly described  
the coming of the Boche at night.  
They came at exactly 10 o'clock  
every night. They came in the  
day time to get maps and came at  
night to do their dirty work. She  
witnessed a raid on a Henry the  
Eighth chateau where there were  
many sick and wounded. These  
air raids at night were very  
spectacular when the big search-  
lights were sent down from the  
sky but the toll always followed.  
Ambulances would bring in the  
wounded to be cared for.

**Nurses Sent to Paris.**  
When the American army was  
moved on to the northwest, the  
nurses were sent back to Paris.  
From there they went to visit  
Rheims. Before the war there  
were 10,000 homes of beautiful  
architecture there. Now only  
seven remain. Berry-Au-Bac was  
completely destroyed and there is  
nothing left of a noted sugar re-  
finery once located there. At  
Croame which is located on a  
high hill and where the soil is  
chalk, not one home was left.  
But the bare trunks of trees give  
the country a more devastated  
look than the shattered homes.  
When Miss Brooks visited the  
Hindenburg trenches they were  
in good condition with bags of  
sand over the entrances. At the  
fort at Verdun provisions for  
fourteen years were stored. Most  
interesting was Miss Brooks' story  
of the celebration in Paris  
when the armistice was signed.  
It was hard to believe that the  
Germans were sincere. For three  
days and three nights they cele-  
brated. And the electric lights  
were lighted for the first time in  
two years. The opera house was  
packed in the evenings and na-  
tional songs were sung there.

**Influenza Hospital**  
After the armistice Miss Brooks  
was for ten weeks in a pneumo-  
nia and influenza hospital. They  
had to pay a fine for gathering  
twigs at Thanksgiving time and  
so did not know until noon before  
Christmas that they could have  
Christmas greens. The boys  
decorated their own wards and  
every one was filled with the  
Christmas spirit. Fudge and taf-  
fy were made for 1,250 boys. The  
"Y" woman had secured socks  
for each one and oranges and  
hard candy were put in each sock.  
On Decoration Day Miss Brooks  
was at Savenay and there helped  
to decorate the graves of the  
American dead and write to the  
parents.

**Accompanied War Brides**  
After being stationed at Savenay  
for a short time Miss Brooks  
received orders to proceed to the  
port of Brest and there with  
three other Red Cross nurses  
she accompanied one hundred war  
brides who were scheduled to sail  
for America on the Transport  
Antigone. Three "Y" women  
were in charge of the brides, with  
the nurses along to look after  
their health and general welfare.  
Miss Brooks felt that she should  
be grateful to France for the spir-  
it she showed until America woke  
up and got over there.

The speaker showed pictures  
of the devastation wrought,  
of the American cemeteries, and other  
French views.

**Heightens Keen Humor**  
The pathos and tragedy of war  
were constantly in the minds of  
those who heard Miss Brooks.  
This heightened the keen humor  
that was ever present in her lec-  
ture.

**German is no Sportsman**  
Miss Brooks in touching upon  
the character, treachery, coward-  
ice and unsportsmanship of the  
German, told her audience that  
the lack of any sportsmanship in  
the enemy was due largely to the  
way in which he was reared; to  
his general environment.

**A NOBLE OUTCAST.**  
A large audience witnessed "A  
Noble Outcast," a modern four  
act Drama given Friday night,  
November 7th, at the McCabe M.  
E. church. The weather being  
slightly unfavorable had no effect  
upon the attendance and every  
one seemed well pleased with the  
affair. The characters did un-  
usually splendid work and dis-  
played remarkable dramatic  
ability in the presentation. The  
cast was as follows:  
Gerald Weston, only a Tramp—  
Charles Tinsley.  
Col. Matthew Lee, a Banker—  
Elroy Cox.  
James Blackburn, villain—  
James Young.  
Jack Worthington, his rival—

## DERAILED ENGINE DELAYS TRAFFIC

Engine of Passenger Train  
Leaves Track Near Arnold—  
Train Delayed Less Than an  
Hour.

The Wabash flyer due here at  
12:45 p. m. was delayed about  
an hour Saturday when the en-  
gine left the rails about a mile  
and a half east of Arnold station.  
The engine ran for some distance  
on the ties but fortunately did  
not overturn. None of the cars  
left the rails.

A number of Jacksonville peo-  
ple were on the train and they  
telephoned for automobiles and  
came on to Jacksonville. The  
wrecker was sent from Springfield  
and placed the engine back on  
the track.

## MISS BROOKS SPEAKS AT PASSAVANT

Tells Students and Graduate  
Nurses of Her Overseas Ex-  
perience and Urges Them to  
Become Red Cross Nurses.

Miss Fanny Brooks, R. N., a  
member of the faculty of the Uni-  
versity of Illinois in the Depart-  
ment of Economics, and a Red  
Cross nurse just recently re-  
turned from eighteen months of  
overseas hospital service, ad-  
dressed the Passavant Hospital  
Training School last evening.  
There were present the student  
nurses and a number of graduate  
nurses. Miss Goode, superintend-  
ent of the institution introduced  
the distinguished visitor and Miss  
Brooks was heard with the closest  
attention as she told of her per-  
sonal experiences on the other  
side. She also urged all of hear-  
ers to become Red Cross nurses  
and gave reasons why this course  
should be followed and what ad-  
vantages were to be gained by  
such action.

## The New "Overland Four"

Tested 250,000 Miles. Three Point Cantilever Springs.  
Greatest Improvement Since Pneumatic Tires.

Overland 4 has been put through the most thorough and se-  
vere test possible.  
250,000 miles of mountain trails, desert sand, heat, cold, mud  
and dust, demonstrated the quality of every part of the car  
long before we began manufacturing.  
This remarkable test showed conclusively that Three-Point  
Cantilever Springs, exclusive with Overland, are the greatest  
improvement in riding comfort since the introduction of pneu-  
matic tires.  
They protect the car from road shocks and prolong the life  
of every part.  
They enable the wheels to hold better to the road. They give  
greater comfort under all road conditions.  
They do away almost entirely with side sway and rebound  
which twist and rack the car.  
Diagonal attachment of the Three-Point Springs at both ends  
of a 130-inch Springbase gives the steadiness and smooth rid-  
ing of the heavy car of long wheelbase.  
Equipment is complete from Auto-Lite Starting and Lighting  
System to Marshall Divan Spring Upholstery.  
Come in and see this car. Ask for Booklet. Overland 4

## "LEAF RAKING DAY" IS ENJOYED AT COLLEGE

Event is Followed by Parade Thru City to Woman's College—Program and Dance at Night.

The annual "leaf raking" event of Illinois College was held Friday afternoon at 1:00 o'clock. Indications of leaf raking were evident as early as eight o'clock Friday morning when students in costumes of all shapes and form appeared on the campus. Some of the male students forgot that it was "rough-neck" day and came to school attired with their usual neckties and collars, but they were soon persuaded to remove them.

At eleven o'clock in the morning school was dispensed with and all the boys went home to get their rakes. At one o'clock they all appeared on the campus and busied themselves with "raking in the leaves." At 3:30 o'clock a parade was headed by the school band and Miss Marie Antionette. The parade was made up of the "College Bolsheviks" who were represented by their red flags. After marching down to the Woman's College they returned to the "gym" on the Illinois campus where they met the feminine set and went to dinner which was served by members of the faculty.

At 6 o'clock the following program was given under the auspices of "dorm" court.

Introduction speech by Edward Tanner, president of the Freshmen class.

Short talk on "How to be Gracious" by Roy Riess.

Song by James Smith and Lowell Andrews.

Virginia Reel danced by twelve Freshmen.

Song by Mary Winchester and Floyd Barrall.

Quartet by Misses Yeldell, Beans, Groves and Gillispie.

Short talk on "How to be Popular" by Gladys Howard.

It is said a proposal of marriage was made and accepted at this time.

William Sprague, with permission given him by the judge of "dorm court," officially closed the "College Court of Correction" with much joy to all Freshmen.

One of the attractions of the day was Franklin Scott who was disguised as a woman and assumed the name of Marie Antionette.

A dance followed the program which was continued until 10:00 o'clock when "Home Sweet Home" was played.

Every one present had a most enjoyable evening, but the Freshmen were the happiest of all. No more rubber collars, green arm bands or green caps and most of all they will be allowed to converse with all the fair maidens on the campus.

### PUBLIC SALE

## H. E. REEVE DIES IN CALIFORNIA

Former Resident Passed Away Saturday Morning—Death Followed an Operation.

John J. Reeve received a telegram Saturday afternoon announcing the death of his brother, Henry E. Reeve at Los Angeles, Calif. Death followed an operation to which Mr. Reeve submitted several days ago.

Deceased was the son of Robert B. and Sarah E. Reeve and was born at the old Reeve homestead near Sinclair. He was 60 years of age at the time of death. He was united in marriage to Miss Mary Taylor who survives, together with two sons, Hurran E. and Nelson Reeve, of Los Angeles, Calif., and two daughters, Mrs. Ralph Howe of Grants City and Mrs. Merle Harshaw. He also leaves four brothers and two sisters: John J. Reeve and T. B. Reeve of this city, William of California, Fred of Geneva, Mrs. Alex Smith of this city and Mrs. O. J. Spainhower of East St. Louis.

For many years Mr. Reeve was a resident of this city where he followed the trade of carpenter. He removed to California about 20 years ago. Mr. Reeve was a member of the Methodist church and of the local carpenters' union. He was a man highly regarded in this community and news of his death will be received with regret by a large circle of friends. It is not known when the funeral will be held but it probably will be at his home in California and burial will be made there.

### FANNIE WOOD

COMING TO RIALTO

Fannie Ward, whose girlish spirit and appearance gives such an enduring charm to "Common Clay," is proud of a collection of 5,000 letters which she received from admirers in all parts of the United States and all parts of Canada. The natural supposition is that this correspondence comprises the fervid sentiment of admiring males; but Miss Ward prizes it most highly because it is not—the letters were written by girls of ages ranging from fifteen to twenty. No other woman on the stage or screen has ever depicted girlhood with such fidelity and charm, and in "Common Clay," A. H. Woods' screen rendition of the Harvard prize play by Cleves Kinkaid, Miss Ward achieves a characterization that must add enormously to her artistic reputation.

This great picture will be shown at The Rialto Theatre, for two days, Monday and Tuesday.

## RED CROSS GOAL NOW MUCH NEARER

County Will Reach Quota in Membership Drive—Comparative Figures Are Encouraging.

When the Red Cross headquarters closed Saturday night reports had been received that indicated

Morgan county would reach her quota in this great membership campaign. The city of Jacksonville has splendidly

the Third Roll Call and if the county and branches returns are anywhere in the same proportion the goal will likely be passed, according to Chairman Spink's statement.

**Some County Reports**

More than 2,500 members have been enrolled in the city of Jacksonville and South Jacksonville and there are still some reports to come in Monday and Tuesday. Concord is the first branch to report and the enrollment there has reached the 300 mark which means Concord will easily reach her quota. This speaks well for Chairman Alfred Brockhouse and his workers.

Waverly, which is making a money making campaign for a Red Cross nurse in that community along with the membership campaign, reports that a membership of 400 will be secured. This will put Waverly within reach of her quota.

S. F. Sooy of Murrayville and Dr. Mermer of Woodson state that the campaign will be finished in their communities by Armistice Day and that they will have reached their mark by that time. At Franklin, Dr. Metcalf advises that the work may have to continue most of this week to be completed on account of the road conditions and the weather.

**Comparative Figures.**

In order that some idea may be gained as to the city membership so far enrolled with some solicitors yet to report, both last year's and this year's are given as follows.

	Last Year	This Year
First Ward	250	171
Second Ward	577	483
Third Ward	391	234
Fourth Ward	472	515
South Jacksonville	120	80

The business section took a leap upward Saturday when the enrollment number was raised to 1381. The number will exceed 600 in this district when all returns are in. This is estimated as an increase of fifty per cent over last year.

The Canteen Girls enrolled 96 members on the square Saturday. Most of these were from country districts that had not been solicited extensively.

The first county precinct to report is Number 7 where Howard Stevenson and V. R. Riley report an enrollment of 96. This lacks only eight to equalling last year's work and these will likely be secured during the closing days of the campaign.

With two more days of the campaign remaining, with fair weather, it is expected that the remaining unreported branches and county precincts will swell the membership to 5,511, Morgan county's quota.

**The 100 Per Cent List.**  
Additional business houses reported 100 per cent Saturday were:

Widmayer's Meat Market, East State street.

Walsh Electric Co.  
Everready Battery Co.  
Roach Press.

Mullenix & Hamilton.  
Ehrie Bros.

**THE VANDALIA ROAD**  
Work is progressing on the Vandalia road at the crossing changed by the new waterworks and while teams may possibly get by auto owners and those with heavy loads would do well to go around by the hard road.

In March we placed our order for fall and winter suits and overcoats.

Wholesale prices advanced ten dollars and more per garment. But this advance did not apply to our order. The increase became effective at once on all orders placed then and thereafter.

Our stocks of suits and overcoats were brought at the old prices. Manufacturers now charge more for the same garments and they are worth more. When our present stocks are exhausted, we shall have to pay more. They cannot be replaced at the old prices.

We believe that clothing should be sold on a basis of cost regardless of subsequent developments. The price we charge is determined by the price we pay, no matter how much higher the prevailing market value may be.

We won't charge more unless we have to pay more, and we won't pay more if we can help it. But no matter what we pay or when, our selling price will represent nothing more than a legitimate profit upon the actual cost.

## THRILLING WOLF HUNT NETS ONE BIG BUCK

Two Hundred Men Participate in Hunt Southeast of White Hall Yesterday—One Wolf Escapes Thru the Lines.

White Hall, Nov. 8.—A wolf hunt was pulled off today over a radius of eighteen miles south and east of White Hall, which netted one big buck wolf in the roundup and another escaped. The drive began at the C. & A. railroad bridge over Apple creek on the east, and on the west the starting line was at Seely's Mill, about eight miles apart. The hunt was organized in sections extending about two miles out on either side of the course of Apple creek. The drive began at 7 a. m., and by noon the roundup began to form on Knudson's ranch, netting one wolf, as before stated and another one escaped through the line. This ranch is owned by Benj. Knudson of Springfield.

This is the first wolf drive over the territory covered. In years past the wolf and fox drives were great events in this section; the last event of importance taking place some twenty-five years ago over the Gregory ranch, east and south of White Hall. At that time it will be remembered that the late A. B. Gregory lost a very valuable horse by breaking its neck in attempting to jump across a ditch. Wolves have been observed in the last few years about the territory covered by today's hunt, and the hunt was organized by Fred Cox. Plans were perfected at a meeting held at Berlin, and each mile of the to-

tal area of eighteen miles covered was in charge of a leader. About two hundred men participated with clubs and dogs, the use of guns being limited to certain ones chosen. The loss of chickens, hogs and sheep aroused the inhabitants to action, and practically every male resident of the territory took part in the extermination drive. Another drive may be organized soon, as more wolves are known to be in the vicinity.

## HOPKINS' FUNERAL AT URBANA FRIDAY

Services are Held at Auditorium—Dr. C. E. Black of this City Speaks as Representative of Red Cross Commission.

Funeral services for the late Major Cyril G. Hopkins were held at the University Auditorium in Urbana Friday afternoon at three o'clock. The following exercises were carried out:

Mr. Money at organ.  
Vested choir of sixteen to precede casket, chanting.

Song, choir—"Lead Kindly Light."

Scripture reading and prayer—Reverend S. E. Fisher.

Representing the University—Acting President David Kinley.

Representing his work in Greece—Major Carl Black Jacksonville.

Representing the College of Agriculture—Dean Eugene Davernport.

Scriptural remarks—Reverend S. E. Fisher.

Song, choir—"Abide With Me"

Recessional.

Classes Suspended

University exercises were suspended during the hour of the funeral and the College of Agriculture was closed during the afternoon.

Major Black's Remarks.

The remarks by Major Carl E. Black at the services follow:

"It is not necessary to say to you that I deem it a great privilege to stand by the bier of our great countryman today and say a word as the representative of that Commission of the American Red Cross which served the allied cause by giving aid to heroic little Greece."

"Our friend and recent companion whose premature taking away we mourn today was the truest disciple of peace. While some of us who went overseas were assigned service more directly connected with the activities of war his was pre-eminently an assignment for peace."

"When the great statesman—probably the greatest statesman developed by the war, Mr. Venizelos—sent an appeal to America to send them some one who could discover for Hellas a way in which her people could produce enough bread to feed themselves we responded—you responded, by sending the greatest authority in the world."

"It was a great inspiration to all of us who had the privilege of serving our little sister republic to see and feel the quiet, enthusiastic and efficient way in which he went about the task of demonstrating in an unmistakable way that the soil of this most ancient country, even with its ancient methods, could produce not an average of five fold as heretofore but an average of twenty fold."

"It was a beautiful and inspiring sight to see him carrying from village to village of the much beloved lands and islands of the Aegean the rich experience which he had gained on the broad prairies of the sister republic across the seas. He was the real big brother come over to share with them the good things of knowledge which the broad opportunities of the new world had revealed to him."

"Little did I think, when I saw him in Athens the last days of August so strong and well and so happy in the thought that we would all soon join our families and friends at home, that that thought and dream of the year would never be realized by him."

"One of our members lies in a distant little Greek cemetery near Athens probably never to be returned to his native land and the second began the journey home to be stricken on the way. Every member of the Red Cross Commission to Greece mourns the loss and appreciates the superior sacrifice of these two more deeply than I am able to tell you. I only regret that Colonel Capps, our commissioner, could not be here to say a word for the commission in appreciation of the great service of Major Cyril G. Hopkins in behalf of our cause and our ally—Greece."

## The NEW NASHFOUR

The announcement coming out of Kenosha that the Nash Motors Company which has been in business only three years has outgrown the facilities of its present large factory and has been forced to build another factory in Milwaukee for the manufacture of a new Nash four-cylinder car is one of the most interesting since the early days of the industry when phenomenal growth was the rule rather than the exception. The present Kenosha factory's output for the current fiscal year is 40,000 passenger cars and five thousand trucks. Yet this manufacturing capacity is entirely inadequate to keep pace with the increasing demand for Nash products. Speculation as to details of the new four cylinder car is evidently wide-spread. Interest in this new car is apparently just as great as was that preceding the appearance on the market of the present Nash Six. The Nash Four will be a real leader in its class, and that it will be in every way up to high Nash standards.

Forty acres of ground have been purchased in Milwaukee and contractors are already at work erecting a factory there for the exclusive manufacture of the four-cylinder car. It is expected that this Nash plant will be finished well within a year and that the new car will be in production some time before September 1st, 1920.

The new Milwaukee factory will comprise a power plant, foundry, machine shop, drop forge department, body building plant and sheet metal plant. When finished it will be equipped to build Nash Fours in as large a volume as Nash Sixes are now being built in the Kenosha factory.

**The Silver's History**

"Lufbery" Silver, now on display at the Charles Price Jewelry store, takes its name from one of the most daring of American aviators, a man who gave his life after he is credited with downing seventeen German machines. Thirty-four years ago there was born in Clermont, France, Raoul Lufbery. His father an American and his mother French. At an early age he ran away from home and became a world wanderer and finally drifted into Wallingford, Conn., and for a short time was employed in the factory of the International Silver Co. But the work did not appeal to him and he again took up his wanderings and in 1914 joined the French aviation service. When the American air service began to assume active shape in France he was commissioned a major in the American army and later inducted into the United States service with that rank. Just how many German machines he destroyed may never be known although he was officially credited with seventeen. When Major Lufbery was shot down on the battle front the best aviator in the American air service was lost to the cause of the Allies, and a brave man went to his death.

## JACKSONVILLE HIGH DEFEATED QUINCY HIGH.

Locals Outplay Visitors Thruout and Win in Decisive Fashion—Waverly Football Team Were Spectators.

With the entire Waverly football team watching the game from the sidelines, Jacksonville High took Quincy into camp on Illinois field Saturday afternoon by a score of 23 to 0.

Molohon was out of the line-up as was Bray, but A. Arter and Cobb proved worthy substitutes and the locals played consistent football thruout. At no stage of the game did Quincy show superiority. In the second period they had the ball within striking distance, but Jacksonville held them until the half ended. Jacksonville's backfield again demonstrated its ability to tear up the opposing line. Time and again, Green, Cockin, Hunt and A. Arter made big gains thru the Quincy line. They were aided in this by the Jacksonville line which outcharged the Quincy forwards. Ransdell and Lucas both demonstrated they are two of the best high school ends in this section by picking forward passes out of the air for long gains. They both played excellent defensive games while Cockin again gave a great exhibition of tackling.

Quincy had a heavy back field and at the beginning of the game made some gains thru the line and around the ends. The locals soon solved their attack and stepped up the holes. However, they opened up on forward passes in the second half and for a time had the locals going as they did not

seem to be able to break them up. However, nearly all of their passes were for short gains and Jacksonville soon found a method to stop them.

**First Period.**  
Quincy kicked off to Green, who carried the ball back ten yards. Jacksonville started to hit the line and made three first downs. The ball was then fumbled and Quincy recovered it. Quincy could not gain and kicked. The ball passed over several times during the period neither team being able to gain and being forced to kick. Practically all of the playing was done in Quincy territory. The period closed with the ball in Jacksonville's possession.

**Second Period.**  
When the period opened, Lucas on an end around run carried the ball 20 yards. Cockin carried the ball over on a line plunge and fumbled and Quincy recovered the ball but the player was downed for a safety. Score, Jacksonville 2; Quincy 0.

Quincy put the ball in play on the 20 yard line, and kicked on the first play. Jacksonville made first down on line plays and then Green passed 20 yards to Lucas who ran 20 more for a touchdown. Green kicked goal. Score, Jacksonville 9; Quincy 0.

Jacksonville kicked to Quincy and soon forced her to kick. Ransdell blocked the ball and was knocked out for a few moments. Quincy held and Jacksonville kicked. Quincy opened up a series of forward passes which the locals could not solve and had the ball on Jacksonville's 12 yard line when the half ended.

**Third Period.**  
Quincy kicked to Jacksonville. After making first down on line plays Jacksonville was penalized for being offside. A pass, Green to Ransdell, netted 15 yards. Jacksonville then hit the line for 20 yards, Green going over for a touchdown. The goal was missed. Score, Jacksonville 15; Quincy 0.

Jacksonville kicked to Quincy. The visitors then started a passing game and made two first downs. Finally Jacksonville intercepted a forward pass and got the ball.

Jacksonville was penalized and Green then passed to Ransdell for 30 yards. Jacksonville made two first downs on line plays when the period ended. Score, Jacksonville 15; Quincy 0.

**Fourth Period.**  
Quincy was penalized on the first play for roughing. Ransdell then took the ball on an end around run and made a touchdown. Lucas kicked goal. Score, Jacksonville 22; Quincy 0.

Jacksonville made an onside kick and A. Arter got the ball and carried it ten yards. Quincy held and took the ball on downs. Quincy could not gain and kicked. Jacksonville hit the line for a first down. Hunt passed to Green for a 25 yard gain. Jacksonville then lost the ball on an incomplete forward pass back of the goal.

Quincy after trying a pass and failing, kicked to Green in the center of the field. He got away and carried the ball back 35 yards. Green made ten yards off tackle. Hunt then circled the end for a touchdown and kicked goal. Score, Jacksonville 29; Quincy 0. The game ended with the ball in Quincy's possession on the 40 yard line. The line-up:

Misses Lizzie and Carrie Ratachak of Jacksonville spent Thursday night and Friday with Miss Amanda Middendorf.

Mr. and Mrs. Charles Reynolds of Oakland, Calif., are guests of the latter's sister, Mrs. E. H. Keilm.

It is their first visit to Illinois in 13 years.

Mrs. Louise Fredeen is seriously ill at the home of her parents, Mr. and Mrs. N. J. Moore.

Mrs. S. M. Carver has returned from St. Louis where she has been a visitor for several days.

The teachers of the M. P. Sunday school entertained their pupils at a Halloween party at the

church basement Monday evening. Refreshments of pumpkin pie and cocoa were served.

Much harmful mischief was done in the north part of town under the guise of Halloween Saturday night. The citizens in this part are getting tired of this kind of property destruction and a damage suit or two brought against the town might tend to check this form of rowdiness which has been rampant in this section for the past three years.

## WHAT ARE SECONDS?

"Seconds" is a term used to denote tires that for one of the reasons mentioned below do not carry the manufacturer's regular mileage guarantee. These reasons are:

- (1) Over production in certain sizes.
- (2) Change of tread.
- (3) Change of Color.
- (4) Slight surface blemishes.

The fact that a tire is stamped "second" does not mean that it will not give its original guaranteed mileage. The tires we sell as seconds can safely be sold with the manufacturer's original guarantee.

We Have on Hand a Limited Number of  
Republic-Grande Cord Tires

While these tires are classed as seconds they are guaranteed to be absolutely brand new, name and serial number appearing on each tire, and free from all defects. Here is your chance for a cord tire at less than fabric prices. 214-212 East Court Street. Bell Phone 640, Ill. 1640

CHICAGO TRIUMPHS  
OVER MICHIGAN

Maroon Eleven by Brilliant Execution of Forward Passes  
Scores: Two Touchdowns—  
Final Score 13 to 0.

Chicago, Nov. 8.—Playing before a crowd of 25,000 persons, Chicago triumphed over Michigan, its historic football foe 13 to 0 today in a game in which forward passes played an important part. It was the first test of strength of these two eleven since the 2 to 0 victory. Chicago scored over the Wolverines in 1905 and Stagg field was jammed to standing room capacity.

Brilliant use of the forward pass turned the tide in Chicago's favor after unsuccessful attempts had been made to batter down the Michigan defense. The Maroons failing to pierce the Michigan forward wall from the one yard line opened up a dazzling array of forward passes that resulted in a touchdown in the

second period and another in the fourth.

With the ball on Michigan's 18-yard line, Graham, the Chicago quarterback, shot a 10-yard pass to McDonald who dashed across the Wolverines goal for the first score in the second period. Higgins kicked goal. In the fourth period, Graham heaved a 20-yard pass, bringing the ball to Michigan's 10-yard line. Hutchinson tipped thru the line for nine yards, and Elton went over on the next play for the second touchdown. Higgins failed at goal.

With defeat facing them, the Wolverines opened up a bewildering attack in the fourth period, making nine attempts to gain by this method. Only two of the nine passes were successful. Cliff Sparks, the Michigan quarterback, tried vainly to boot field goals from the 45-yard line, but his two attempts went wide of Chicago's goal.

The Wolverines were outplayed in three of the four periods, but fought desperately whenever Chicago threatened.

ILLINI DEFEATS GOPHERS  
IN FINAL PERIOD

Zuppke's Men In Great Comeback  
Picking Game Out of Fire By  
Score of 10 to 6.

Minneapolis, Minn., Nov. 8.—Opening up with almost everything they had in the final quarter the football eleven from the University of Illinois "came back" with a roar, snatched the game from the fire and defeated Minnesota 10 to 6, on Northrop Field this afternoon, after the Gophers had scored a touchdown in the third period.

For three periods, Coach Williams' men mauled and smashed thru the Illinois' line, until it seemed that only a miracle would save Zuppke's warriors from a decisive defeat.

Once Minnesota had the ball on the Illinois 1-yard line. A few minutes later after a series of tackle smashes and short end runs, Oss broke away and ran 15 yards for a touchdown.

Late in the third period, Walquist sailed a 45 yard forward pass which Carney handled perfectly and Illinois had the ball on Minnesota's 27-yard line when the period ended. Again Zuppke's men cut loose. Three short tearing gains netted 10 yards and Walquist shot a pass to R. Fletcher which brought the ball to Minnesota's 2-yard line. Twice Minnesota held, then the same Fletcher crashed thru for a touchdown and kicked a fairly difficult goal.

Minnesota kicked to Illinois and once more Fletcher, who entered the game in the third period as a substitute for Sternman was called upon to score. Illinois worked the ball to Minnesota's 30-yard line and Fletcher's place kick just skimmed over the cross bars. From then on Illinois played safe and never was in danger.

OHIO WINS FROM  
PURDUE 20 TO 0

COLUMBUS, O., Nov. 8.—Captain Chic Harley's entrance into the game at the start of the second quarter proved the psychological factor in Ohio State's defeat of Purdue today 20 to 0. Hampered by the absence of two star linemen, Flowers and Holkamp, and minus the services of Harley, Ohio State was unable to make much progress during the first period.

In the second quarter Ohio State opened up and Harley with an elusive run of 30 yards in which he shook off three tacklers and scored the first touchdown.

NORTHWESTERN SUFFERS  
FOURTH DEFEAT

Chicago, Nov. 8.—Northwestern University lost its fourth conference game today being defeated by Iowa, 14 to 7. The Northwestern line was unable to roll back the battering attacks of the Iowa backs who plunged thru for substantial gains on almost every play. Fighting hard in the pinches the purple players kept Iowa from rolling up a big score. Twice the Northwestern line held when the orange and black had only inches to go to gain additional touchdowns.

PRINCETON HOLDS  
HARVARD TO TIE

PRINCETON, N. J., Nov. 8.—Harvard and Princeton played a 10 to 10 tie game today in what was probably the most thrilling football contest ever staged in Palmer Memorial Stadium. The thirty or more thousands of supporters of the great autumn game were in a most constant pitch of excitement as the teams fought their way thru the game.

The Cambridge eleven on the short end of the score almost all the way staged a wonderful comeback and playing desperately in the last minutes of the contest, staved off defeat and tied the score. There was a breathless moment when Church, of Harvard carefully surveyed the angle he had to kick and then swiftly but surely sent the pigskin between the goal posts that gave the fighting Crimson team its tenth point.

## LETTER TO FARMERS CLUB.

In a recent letter to members of the Morgan County Farmers Club, County Agent Kendall had the following to say: The executive committee and advisory council of the Morgan County Farmers Club at a recent joint session decided to invite the organizers of the Illinois Agricultural Association to assist the county organization in a combined membership drive for both the county and state organizations. The drive cannot well be made before February. In the meantime we ought to have many voluntary enrollments in the state organization by those who believe farmers should organize for business purposes. We want you and your auto ready when the drive starts.

## Hog Cholera.

Occasionally some one comes into our office and whispers that somebody else has hog cholera on his farm and wonders if we can do anything to help the brother out of the mire and keep the disease from spreading. We want to co-operate with the farmers of this county in diagnosing diseases of livestock and controlling them. We want to know of outbreaks. In all the spirit of fairness we ought to be informed by the man on whose place the outbreak occurs. We have no magic wand to wave nor drugs to sell, but are confident that we can be of material assistance to the fellow who does not know what to do. At any rate, we shall never get anywhere by keeping still, or suffering in silence when it comes to hog cholera. That was the old way. Let's have team work and save the hogs.

**Boys' and Girls' Club Work.**  
Do you know that Waverly has started a Baby Beef Club with 100 members? Do you know that if you will boost we can have calf or pig clubs or both all over this county? It only needs local leadership and financial backing. If you will help round up the boys and girls we will guarantee the financial backing. As a starter send in a list of names of boys and girls who are anxious to become club members, or round them up and invite us to talk to them.

## What Shall We Do With Our Straw?

This is a question that is causing as much serious consideration among the better farmers as any other farm problem at the present time. No careful farmer is anxious to burn his straw thereby losing considerable plant food and much valuable organic matter and yet where livestock is not available to convert this straw into manure its disposition, especially in view of recent experience with wheat scab, become a problem.

Unfortunately there is no authentic data available to show the exact cash value of straw when applied to winter wheat or rye. The University has been spreading straw on winter wheat for several years, but up to the present time the results are not conclusive. Wheat top dressed with straw during the winter of 1916-17 made a very remarkable increase in yield over that not covered, while straw applied last winter showed no increase whatever. Of course, last winter was a very unusual one and naturally not favorable for straw spreading to show any benefits.

In the consideration of this problem we should recognize the value of the straw from the standpoint of fertility value. The following table shows the relative values in terms of pounds of Nitrogen, Phosphorus and Potassium per ton of the material used.

Nitrogen.	
Fresh Farm Manure	10 lbs
Oat Straw	12 lbs
Corn Straw	16 lbs
Wheat Straw	10 lbs
Phosphorus.	
Fresh Farm Manure	2 lbs
Corn Straw	2 lbs
Oat Straw	2 lbs
Wheat Straw	2 lbs
Potassium.	
Fresh Farm Manure	8 lbs
Corn Straw	17 lbs
Oat Straw	21 lbs
Wheat Straw	18 lbs

The use of straw as a top dressing on wheat is an extremely desirable farm practice and furnishes a needed opportunity to return organic matter and as indicated in the foregoing table considerable plant food. It is perhaps needless to add that wherever live stock are available the straw should be converted into manure before being returned to the soil. Where straw is applied as a top dressing we believe it should not be spread too heavily—a ton and a half being about as heavy an application as would seem safe.

The time for spreading wheat straw in order to minimize the danger of distributing the infection of wheat scab is not a definitely accepted period. In the light of present knowledge it seems that the period of greatest infection is during the first few days of the seedling's existence. This being true, it would seem that the common farm practice of spreading the straw while the ground is frozen, any time from November 15 to February 1 would be the safest from the standpoint of insurance against scab.—J. C. Hackleman.

GEORGE B. KENDALL,  
County Agent.

## Serum Advice is Given

By U. I. Man.  
"Some farm bureau agents have been approached by commercial concerns relative to distributing anti-hog cholera serum," says Robert Graham of the department of animal pathology at the University of Illinois. "Briefly," he continues, "there are many factors, some of which are local in character, which need to be considered. If it is the idea of the stockmen to save money we believe the veterinarian will encourage the undertaking, but if it eliminates the assistance rendered by the veterinarian, a certain injustice to livestock industry may follow."

"If the serum distribution is of such vital importance in the swine disease situation it is suggested that large quantities of serum and virus be purchased through such channels as veterinarians. Stockmen feel that this will appreciably reduce the cost without attempting, however, to eliminate the services of a competent veterinarian. Serum might be purchased for a group of counties at wholesale figures. "Farm bureau agents in the capacity of serum agents may be able to render service but as a general policy under Illinois con-

ditions there is no apparent reason why the time of the farm agent should be devoted to the distribution of hog cholera serum, especially when it is realized that competent veterinary service is indispensable in stock raising communities. One farm bureau agent has so aptly said, 'We need more competent veterinarians,' and there is no agency in the able aid in securing proper veterinary service that can render more valuable service than the farm bureau."

"Any action relative to establishment of serum depots will necessarily involve the support and cooperation of practicing veterinarians, if the best production against hog cholera and other destructive animal diseases is secured," he concludes.

## THE FARMER AND THE COAL STRIKE

In the early days of the Virginia colony the English gentlemen composing the bunch would not work and the colony was in danger of starving. The stern

old governor made a rule. "He that will not work shall not eat." It stimulated agriculture and saved the day. If a similar regulation could be enforced today the 500,000 who are trying to freeze 99,500,000 would soon settle down to business and the wheels of industry would again hum. If the farmers of our country were as well organized as the mine workers, they could enforce the edict of the stern old colonial governor and break this unjust strike in time. The soft pedal has been used entirely too much in speaking of this particular strike, but the farmers organizations are showing their disapproval in no uncertain terms. The Farmer and the High Cost of Living.

A farmer went into a clothing store in Quincy to buy a pair of pants. He was shown a pair of cotton at \$4.50 and woolen at \$10.50. "Why are the wool pants so high," he asked. The salesman said, "Wool is so high and it cost so much to make them." The farmer said, "Weigh those pants." They weighed one pound, buttons and all. The farmer said, "I got 50 cents for the wool that went into those pants." Who got the \$10? It quite likely took two pounds of raw wool

when scoured to make the pants, but the farmer in the main was right. Why should apples costing \$5 and \$6 per barrel be worth \$15 when they rot in cold storage? The fruit, for which the California Fruit Growers Exchange receives \$75,000,000 costs the consumer \$100,000,000 more. Why should the miller be allowed a clean profit of \$4 per barrel on flour when the by products will pay for the milling? Brethren and sisters such things ought not so to be.

**Farmers Platform.**  
That the capital invested in agriculture is entitled to the same returns as capital invested in any other business, that the skilled management of a farmer is entitled to the same return as skilled management in any other occupation, that the labor employed in agriculture is entitled to the same wages as labor employed in any other industry, and that the prices of farm products must be sufficient to make these things possible.

## The Gramm-Bernstein Trucks

Conform Strictly  
to that Specification

The Gramm-Bernstein Trucks are built to give service—built to last—are built by the Pioneer truck makers of the world—in short, are today the world's best truck, judged by any standard. There's a size to fit your line of business.

## Usual Truck Troubles and How Avoided

The value of any motor truck is determined by the amount of uninterrupted service it gives. Gramm-Bernstein trucks pay dividends. They are always on duty, out of trouble, economical to operate, and absolutely dependable.

Since a majority of all truck troubles are directly traceable to faulty transmissions and as transmission troubles are practically unknown to users of Gramm-Bernstein trucks, it can be readily seen what an unusual advantage in maintenance cost is enjoyed by the G-B user. The Gramm-Bernstein "Trouble Proof" Transmission is exactly what the name implies. It is actually as near trouble proof as it is possible for any mechanical device to be. There is no shifting of gears, for the reason that the gears are always in mesh.

There can be no stripping of gears, as the teeth are never out of proper contact. This is why the gear teeth cannot "grind," "corner chip" or crack, as occurs through shifting sliding gears.

The gears while always in mesh, are idle until locked to the shaft by the powerful "dog clutches." These dogs never slip, and successfully withstand many times as much abuse in making engagement as do gear teeth.

A Gramm-Bernstein Truck is never out of service or in the repair shop because of transmission troubles, as is evidenced by the fact that the average maintenance cost of all G-B transmissions in use for a 15-month period in 1917 and 1918 was only forty cents each. Think of this when you are tempted to buy "some other truck," equipped with a sliding gear set.

Back of Gramm-Bernstein trucks stand nearly twenty years of successful pioneering and truck building experience, together with unexcelled manufacturing facilities. They are made right. That's why they make good—the world over.

## Read This Firm's Opinion of Gramm-Bernsteins

Marysville, Ohio, July 16, 1919.  
The Gramm-Bernstein Motor Truck Co.,  
Lima, Ohio.

I am sending you, under separate cover, a few photographs showing my trucks in actual use. As to my results and satisfaction, the following would not doubt be of great interest to you. My one 2 1/2-ton truck is 25 months old and has made over 44,000 miles under mostly bad road conditions, and is as sweet a running outfit today as the way when purchased. I have it equipped with 36x6 pneumatic cord tires on front and find it profitable under all conditions. I am hauling sixty 10-gal. cans of fluid milk, weighing 105 lbs. each, including cans, two trips a day from West Mansfield to Marysville, which is 40 miles a round trip. This truck is making 80 miles a day and averaging 8 miles to the gal. of gas and three pints of oil to the 80 miles. You will also see two views of my 5-ton truck which was loaded with 101 cans of condensed

milk, which dropped 25 ft. through a covered bridge near Galena, Ohio, which only broke body and one step iron. This truck I purchased May 26, 1917. It has made over 38,000 miles and is in perfect condition. It is operating from Sunbury to Marysville, Ohio, making 68 mile round trip, averaging at present 5 1/2 miles to the gallon of gasoline and six pints of oil per trip, also having steep hills on this run.

I have just at present installed 38x7 pneumatic cords on the front of one of my 3 1/2 ton trucks which I think will prove out very satisfactory. This truck is carrying 75 cans of milk per trip from Ridgway to Marysville, Ohio, 58 miles, averaging 6 1/2 miles per gallon of gasoline and two pints of oil. I am using one 3 1/2 ton and one 5 ton every day from Sunbury to Marysville, and one 2 1/2 ton from West Mansfield to Marysville, and one 3 1/2 ton from Ridgway to Marysville and one 5 ton at Marysville hauling case goods, supplies, and etc.

It seems to be a miracle to so many people why my trucks are in operation every day, including Sunday. First of all I keep the best of drivers, pay good money, have them at all times in my confidence, daily inspections, and good service from factory. Most every agent of a motor driven truck has interviewed me and would like to make me a good proposition to purchase one of their trucks and put it in operation for future reference, but have not as yet found any comparison. For any further information regarding the amount of milk I haul, the service I give, write J. J. Elliott, Supt. of the Nestle's Food Company, Marysville, Ohio, or Mr. R. E. Hinthorn, Dist. Supt. Hearst Bldg., Chicago, or Mr. Frank Hysell, Supt. of Milk Supply of the Nestle's Food Company, 134 William Street, New York, N. Y.

What the members of the Russian Workmen's Union need is work and lots of it.

A lot of people are just hanging on hoping that President Wilson will lift the war time prohibition ban so they can get a crack at the millions of gallons of whiskey still left in the country.

Well, if the worst comes some of our citizens have money enough to go to France or England.

A Kansas City judge fined violators of the war time prohibition act \$200 each. They will

only have to sell about a quart of Miller's Antiseptic Oil, known as **SNAKE OIL** Positively Relieves Pain in Few Minutes.

Try it right now for rheumatism, neuralgia, lumbago, sore, stiff and swollen joints, pain in the head, back and limbs, corns, bunions, etc. After one application pain usually disappears as if by magic.

A new remedy used internally and externally for coughs, colds, croup, influenza, sore throat, diphtheria and tonsillitis.

This Oil is conceded to be the most penetrating remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts at once. As an illustration, pour ten drops on the thickest piece of sole leather and it will penetrate this substance through and through in three minutes.

Accept no substitute. This great oil is golden red color only. Manufactured by Herb Juice Medicine Co. Every bottle guaranteed—30c, 60c and \$1.00 a bottle at Armstrong & Armstrong's.—Adv.

## GIRLS! DRAW A MOIST CLOTH THROUGH HAIR

Let "Danderine" save your hair and double its beauty

Oh, girls, such an abundance of thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage.

Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and invigorator as told on bottle.

## ILLINOIS COLLEGE NOTES

The alumni and former students of Quincy are planning to hold their get-together meeting on Thursday evening, November 13th, at the Quincy Hotel. Geo. W. Govett, '95, is chairman of the committee on arrangements, assisted by George H. Wilson, '88, Arthur O. Lindsay, '03 and Bernice Wheeler, '18. President Rammekamp and Dean Hayden have been invited to come over to Quincy and speak at the meeting. It is expected that an Adams County Alumni Association will be formed.

Professor W. S. Leavenworth delivered a very well prepared and forceful address at the chapel exercises last Tuesday on the "Value of Ideals".

Miss Laura McDonald, who recently returned from canteen service overseas, will speak at the chapel exercises Monday morning. Visitors will be welcome.

The annual leafraking occurred at the College Friday. As usual a great amount of enthusiasm was manifested by the students. Many unique costumes were in evidence on the campus during the entire day. After the men of the College had raked the campus, supper was served in the gymnasium. During the evening a get-together meeting was held at which time many clever and entertaining "stunts" were given by the freshmen.

The regular devotional service at Academy Hall Sunday evening will be lead by Miss Alice Bray, '22. The subject for the evening will be "Confidence and How to Get It."

The Red Cross Membership Drive was started in Illinois College at the Chapel exercises Thursday morning. Three very interesting and forceful addresses were delivered by Fred Bray and Wilson Akers of the senior class and Ginevra Thomas of the Junior class. Bray and Wilson spoke of the Red Cross work as they had themselves observed it overseas, and Miss Thomas spoke of the home nursing service as she had come into contact with it in Jacksonville and Morgan county. Great enthusiasm was stirred up by the talks of these students. The senior class was the first class to report a hundred per cent Red Cross membership. They were able to make this report Thursday afternoon. Professor George R. Poage is chairman of the College Red Cross Committee.

William Russel, '17, is now teaching chemistry and physics in the State Normal School at Florence, Alabama. Miss Ruby Cully of the class of 1920 is a student at Georgetown University, Washington, D. C., where she is taking a course in American literature.

## COULDN'T WORK FOR THREE MONTHS

Is Back on the Job Now Making More Money Than Ever Before in His Life.

"For the first time in fifteen years I can sit down and eat a big beef steak for supper and go to bed afterwards and sleep like a log all night long," said George Sanderson, a well known miner who lives at 1616 Smith St., Peoria, Ill., the other day.

"Yes, sir, it's the honest truth," he continued, this Tanlac has overcome a mighty bad case of stomach trouble and rheumatism for me. My legs were so badly done up with rheumatism, and ached and pained so bad that I couldn't sleep at night to do any good, and my hands were so badly drawn and swollen I couldn't use my pick half of the time. Then too, I suffered something awful with stomach trouble. Everytime I ate anything I would be bloated up with gas for hours afterwards, and I would have the worst cramping pains in my stomach you ever heard of. Sometimes these cramping spells would hit me while I was in the mine at work and I would have to run out and lie down somewhere until it passed off. I finally got in such bad shape that I had to quit my job, and for three months I was not able to hit a lick of work.

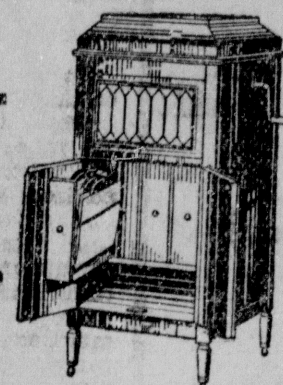

"I was looking over the paper one night and I saw a statement from our State Mine Inspector in which he stated that Tanlac had given him great relief from just such troubles as I was suffering from, and I lost no time in getting me a bottle of this medicine. Well, to make a long story short, Tanlac just simply knocked my troubles winding, and I am so well and strong now that I am back on the job working hard every day and making more money than I ever did in my life. The rheumatism is gone, and I never have an ache or pain from that trouble. My stomach troubles are all over, too, and I eat three big meals every day and don't ever suffer any afterwards. I actually believe I am stronger now than I ever was in my life, and you would think so too if you could see the tons of coal I pile up every day. Tanlac is a real medicine, and you can rely on me to boost it every chance I have."

Tanlac is sold in Jacksonville by Coover & Shreve; in Meredosia by Mr. R. B. Field; in Murrayville by M. E. Gilbert; in Waverly by Wyle Drug Co.; in Woodstock by The Hoy Pharmacy; in Chapin by Jno. Onken & Bro., and in Alexander by Frank J. Kaiser.—Adv.

## PLAN NEW BUILDING AT STATE HOSPITAL

Structure for Occupational Ther-  
apy Will Be Erected at An-  
Early Date—State Legislature  
Appropriation of \$15,000 Will  
Cover Construction With Pa-  
tient Labor—Eighteen Soldiers  
at Hospital.

Work on the Occupational  
Building at the Jacksonville State  
Hospital will be instituted with-  
in a short time. The sum of \$15-  
000 was appropriated for this  
structure at the last session of  
the legislature and was the first  
appropriation made by the state  
of Illinois for a building of this  
kind. It will contain thirteen  
thousand square feet of floor  
space and will be erected adja-  
cent to the boiler plant in the va-  
cant space just north of the east  
reservoir. The building will be  
one story and in sections. It  
will be fire-proof and modern in  
every respect with plenty of light  
and ventilation and with lavator-  
ies and other necessary equip-  
ment. The construction of this  
edifice will be done practically by  
patient labor.

This occupational work is not a  
new idea at the hospital as Occu-  
pational Therapy as it is called  
has been successfully tried out at  
the local institution for a number  
of months. This has been favor-  
ed by the superintendent, Dr. E.  
L. Hill and has been successfully  
carried out under the director of  
this department, Miss Carrie  
Hoppe. The occupational training  
as now employed is being held  
in one room of the main building  
and a number of rooms of the An-  
nex. The erection of the new  
building for this purpose will en-  
able the hospital authorities to  
coordinate the work of this de-  
partment so that it can be ex-  
tended and directed under more  
favorable circumstances.

**Soldiers at Hospital**

A fact which has existed for  
some time and of which few resi-  
dents of the city are aware is  
that there are a number of sol-  
diers of the United States army  
inmates at the State Hospital  
here. There are at the present  
time eighteen army men at the  
hospital. Two more soldiers, one  
of them an overseas veteran, ar-  
rived in Jacksonville yesterday  
under escort and were taken to  
the hospital for treatment. The  
men were brought to the local  
institution Saturday by Sergeants  
John Tyree and Bailey H. How-  
ard from the National Soldiers' Home  
in Virginia. It is said that very  
few of the soldiers now at the  
hospital ever saw overseas ser-  
vice and that several of them are  
suffering from the mental malady  
known as dementia praecox. It  
is to the credit of the institution  
to state that the treatment in a  
number of cases has proven most  
successful and that six soldiers  
have been discharged recently.

**News Notes**

Miss Catlin left for Chicago  
Friday evening to attend a con-

## COLLEGE OF MUSIC

The date of Miss Lazelle's voice  
recital has been changed from  
November 20th to 26th.

Joseph Bonnet, the French or-  
ganist, has had much trouble in  
getting away from France, owing  
to the difficulty of obtaining pas-  
sage, but has been able to keep his  
date of January 9th at the Col-  
lege. The opportunity of hear-  
ing this greatest of all living or-  
ganists is one which this city will  
welcome.

Mr. Norman Campbell sang a  
solo at Centenary Church on  
Sunday morning and Miss Mar-  
jorie Deatherage sang one in the  
evening.

Miss Dorothy DeMary, pupil of  
Mrs. Hartmann, sang a solo at  
the Baptist Church Sunday morn-  
ing.

Miss Gladys Sargent and Miss  
Maeryta Poole, pupils of Miss La-  
zelle, joined with Miss Marjorie  
Taylor, pianist, and some pupils  
of the Expression Department in  
giving an entertainment for the  
Woman's Club of Orleans on  
November 5th.

## CORN MARKET

**CLOSES HEAVY**  
CHICAGO, Nov. 8.—Prospects  
that an accelerated movement  
of the corn crop would take place  
next week had a decided bearish  
effect today on the corn market.  
Quotations closed heavy, 1 1/2 c to  
3 1/2 c net lower with December  
\$1.32 1/2 to \$1.32 3/4 and May  
\$1.24 1/2 to \$1.26 1/2; oats finished  
unchanged 1/2 @ % c down and  
provisions off fifteen cents to  
45c.

Throughout the day, values in the  
corn market headed almost uni-  
formly downward. General sell-  
ing which began at the opening  
and continued unchecked except  
by week end adjustment of trades  
was attributed mainly to the fact  
that a material increase of termi-  
nal arrivals seemed likely to result  
from the suspension of the rail-  
way permit system as applied to  
rural shippers.

Besides the receipts today altho  
not large were ample for im-  
mediate requirements. Weakness  
of foreign exchange together with  
correct anticipations that the  
government crop report issued af-  
ter the close would prove bearish  
tended also to make buyers hold  
back, and to give force to the  
pressure to sell. Trade shifted  
rapidly out of the December de-  
livery and into May.

Export business in oats and  
barley accounted for relative firm-  
ness of oats as compared with  
corn.

Provisions sympathized with  
corn weakness. Furthermore  
liberal receipts of hogs here after  
tomorrow were expected.

## HEAVY SELLING

**OF STOCKS RESUMED**  
NEW YORK, Nov. 8.—Selling  
of stocks was resumed today to-  
day, the movement being prompt-  
ed by the news that the federal  
administration would press its  
injunction proceedings against the  
striking coal miners.

Steel, securities, motors and  
oils recorded extreme declines of  
1 to 7 points. In a number of  
cases lowest quotations of the  
week were made.

Rails and shipings were down  
by the reversal but the former  
showed greater recuperative pow-  
er than any other part of the ac-  
tive list.

Pools made tentative efforts to  
elevate some of the motor spe-  
cialties at the outset. But these  
operations were abandoned later,  
weakness prevailing at the close.  
Sales amounted to 775,000 shares.  
Conditions in the bond market  
were mixed, liberty issues easing  
again with most domestic issues.  
An irregular trend was shown by  
leading foreign issues. Total  
sales (par value) aggregated \$9-  
550,000.
